

MedValue Medical Billing Support Services™

MedValue is the leading provider of Medical Billing Support Services to Large Physician Groups (50 or more), IPAs, Labs, Hospitals & Medical Billing Companies.

MedValue offers Billing Support Services to clients who are seeking to relieve themselves of the pressures of hiring, training and motivating employees, and ensure that they are able to fully satisfy their Providers by processing all billing paperwork accurately and reliably.

Are you facing these challenges?

- Facing shortage of experienced and/or reliable staff?
- Unable to keep up with growing backlog of Demographics, Encounters/Charges, and EOBs?
- Lower & Inconsistent collections from Payers?
- Provider Cash-flow and Satisfaction is suffering?
- Unable to effectively follow up with Payers for all denied/underpaid claims, since your staff is always busy with mundane data entry work?
- Lost control of your collections by outsourcing to a third party?
- Are you paying 6%-9% of your hard earned collections for your billing process?

We are a good fit for your needs

If you are a large group with 50 or more Physicians and desire to retain more control of your billing in-house, yet you want to find an economical solution to your challenges, then you have come to the right place. We are a good fit for your needs. We take on mundane work of entering Charges/Encounters and posting payments for a **low variable monthly fee based on number of encounters**, instead of a large percentage of collections fee.

MedValue's **HIPAA Compliant** Medical Billing Support Services encompasses the following activities:

1. Patient Demographics Data Entry & Updates
2. Patient Eligibility Verification from various systems
3. Code Review and Scrubbing
4. Accurate Data Entry of Charges/Encounters (Super-Bills)
5. Payment Posting from EOBs, and more.

You will accrue the following benefits:

- **No Backlogs and Rapid turnaround** (24 hours or less)
- Simple variable low cost model - **Less than 2% of Collections**
- We assist your billing department with Charge-Entry, Payment Posting and other manual chores, so as to relieve them to focus on AR follow-up and negotiating payments with Payers, thereby **improving collections** for your physicians.

Low Cost & High Value

MedValue services are very affordable and are designed to solve your challenges at a **low variable monthly fee**, providing you with the accuracy, reliability and scalability you would expect from us.

MedValue

More Freedom. More Flexibility. More Profits.

Getting started with us is Easy

Our process is **easy** to implement. All you have to do is to scan the demographics, encounters and payments to us **securely** using our Secure FTP. We will train your staff on how to do scanning and set you up with a high speed scanner. We will also work with your IT Staff to setup remote connectivity to your billing software and systems.

By the start of the next business day, you will be pleased to see that all Patient Demographics, Encounters/Charges and Payments are processed, and entered into your Billing System.

Our extensive experience in various Medical Billing Platforms such as **LSS, NEBO, Lytec, MediSoft, Prime Clinical & others**, means you can get started with us easily and quickly. We can learn a new medical billing system in just a few days.

You can count on us for Accuracy, Consistency & Reliability

MedValue processes **thousands** of Provider Demographics, Encounters & Payments for our customers **every day**. Our customers enjoy the **Accuracy, Consistency** and **Reliability** that accrues to them by working with MedValue

To provide our clients the highest levels of quality and turnaround time, MedValue has developed **Workflow Management System™ (WMS™)**, a proprietary suite of **Management Information Reporting** tools designed to enhance your effectiveness in managing your Billing Operations.

We are very confident that with our Medical Billing Support Services we can help you solve your billing related challenges in a very cost effective manner quickly and easily.
